

761—117.1 (306B,306C) Definitions. The definitions in Iowa Code section 306C.10 are adopted. In addition:

“Abandoned sign” means an advertising device for which the owner has failed to timely apply for the required outdoor advertising permit(s) or has failed to timely pay the required fee(s).

“Area zoned and used for commercial or industrial purposes” means an area zoned for commercial or industrial purposes in accordance with Iowa Code chapter 414, in the case of city zoning, or in accordance with Iowa Code chapter 335, in the case of county zoning, in which one or more commercial or industrial activities, as defined under the city or county zoning ordinance, are located.

“Billboard control Act” means Iowa Code chapter 306C, division II.

“Bonus Act” means Iowa Code chapter 306B.

“Daylight area” means a triangular area formed by a line connecting two points each back (50 feet in city, 100 feet in unincorporated area) from the point where the right-of-way lines of the main traveled way and an intersecting street meet or would meet if extended.

“Development directory sign” means the same as defined in rule 761—117.15(306C).

“Directional and official signs and notices” means official signs and notices, public utility signs, service club and religious notices, public service signs, and directional signs.

“Directional sign” means a sign governed by 761—Chapter 120.

“Face” means that part of an advertising device that is devoted to the display of advertising and that is visible to traffic proceeding in any one direction.

“Interchange” means the entire area constructed for a junction of two or more public streets or highways by a system of separate levels that permit traffic to pass from one level to another without the crossing of traffic streams. This includes all acceleration and deceleration lanes constructed to accommodate this movement of traffic.

“Lease” means an agreement, oral or written, by which possession or use of land or interests therein are given by the owner or other person to another person for a specified purpose.

“LED display” means a face, as defined herein, displaying a message that is formed by light emitting diodes and that is changed by an electronic process. An LED display is a single face.

“Modification” means any addition to or change in dimensions, lighting, structure or advertising face, except as incidental to the customary maintenance of an advertising device.

1. A change in the number or type of support posts is a modification. A change in dimensions is a modification. However, the addition of extensions or cutouts, including forward projecting, is not a modification if the extensions or cutouts are added for a period of 90 days or less and if they are illuminated only by existing sign lighting and do not contain internal lighting.

2. A lawful change in advertising message is not a modification. The use of a vinyl overlay or wrap on either a poster panel or paint unit is a change in advertising message, not a modification.

3. On an advertising device that conforms to all current requirements, the replacement of one metal-framed face with another metal-framed face of the same size, using dissimilar component parts or assembly methods, or both, is not a modification.

4. The addition of LED display capabilities to an advertising device is a modification.

“Nonconforming sign” means an advertising device that was lawfully erected and continues to be lawfully maintained, but that does not comply fully with current size and spacing requirements due to changed conditions, such as a change in zoning, establishment of a new highway, or a similar change that affects compliance.

“Obsolete sign” means an advertising device displaying information pertaining to activities that are no longer conducted or products or services that are no longer available at the advertised location.

“Official sign or notice” means a sign or notice lawfully erected and maintained by a city, county or public agency within its territorial or zoning jurisdiction for the purpose of carrying out an official duty or responsibility.

“On-premises sign” or *“on-property sign”* means an advertising device advertising the sale or lease of, or activities being conducted upon, the property where the sign is located. The criteria to be used to determine if an advertising device qualifies as on-premises signing, excluding development directory signing, include but are not limited to the following:

1. A sign that consists solely of the name of the establishment or that identifies the establishment’s principal or accessory products or services offered on the property is an on-premises sign.

2. An on-premises sign must be located on the same property as the advertised activity or the same property as that advertised for sale or lease. A subdivided property may be considered to be one property if all lots remain under common ownership and all lots share a common, private access to public roads. However, if any lot in the subdivided property is sold or disposed of in any manner, that lot will be considered to be separate property.

3. Contiguous lots or parcels of land may be considered to be one property for outdoor advertising control purposes provided they are owned or leased by the same party. To be considered one property, all contiguous lots or parcels of land must also be used for a purpose related to the advertised activity other than signing.

4. An on-premises sign shall not be located on a narrow strip of land that cannot reasonably be used for a purpose related to the advertised activity other than signing.

5. An on-premises sign is limited to advertising the property’s sale or lease, or identifying the activities located on or products or services available on the property.

6. An advertising device is not an on-premises sign if it consists principally of brand- or trade-name advertising and either the product or service advertised is only incidental to the establishment’s principal products or services or the advertising brings rental income to the property owner. “Principally” means 50 percent or more of the display area of the sign.

7. An on-premises sign concerning the sale or lease of property shall not display the legend “sold” or “leased” or a similar message.

“Public utility sign” means a warning or informational sign, notice or marker that is customarily erected and maintained by a publicly or privately owned utility to mark the location of a utility facility.

“Regularly used” means open for business and staffed by an owner or employee for at least 20 hours per week, on property assessed as commercial or industrial by the jurisdiction having authority; the hours of operation must be visibly posted on the premises. The department may delay action on the permit application for up to 180 days from the date of the application in order to conduct periodic checks on the site as necessary to determine whether the purported commercial or industrial activity meets this definition. A rental storage business is excepted from the staffing requirement if it has 24-hour access for customers and a minimum of 50 units, each occupying at least 50 square feet, individually separated, and enclosed by walls.

“Scenic area” means any area of particular scenic beauty or historical significance, as determined by the federal, state or local officials having jurisdiction of the area. It includes real property interests that have been acquired for the restoration, preservation and enhancement of scenic beauty.

“Service club or religious notice” means a sign displaying a message that is limited to the name of a nonprofit service club, charitable association, church or religious group or cemetery, the location and hours of its meetings or services or the hours it is open to the public, and an appropriate emblem.

“Tri-face device” means an advertising device with three singular faces attached to one common structure in a triangular configuration. The maximum area of any face is 750 square feet. The inside angle formed by any two faces may not exceed 60 degrees.

“Tri-vision device” means an advertising device that has an advertising face with a mechanical device that allows three advertising messages to be alternately visible to traffic proceeding in any one direction. Each message is attached to individual vertical or horizontal louvers, which are mechanically rotated to change the message.
